Backflow Contractor Information

Name:

Address:

Phone Number:

Please initial each line below:

_____ I have included two (2) copies of the sealed irrigation plans for this project (see Irrigation Information Packet for a complete list of requirements).

_____ I have read, understand, and agree to abide by Chapter 344 of the Texas Commission on Environmental Quality's (TCEQ) Landscape Irrigation Rules.

_____ I understand that it is my responsibility to provide the property owner with a drawing showing the actual installation of the irrigation system, and I agree to do so.

Please provide the following information:

Where are the rain and freeze sensors located? _____

Where is the backflow device located? _____

Is this property on sewer _____ or septic _____? If septic, please provide a site plan showing the septic layout and sprinkler head locations.

Is there a well located on this property?_____ If yes, please provide a site plan showing the location of the well and a statement describing its use.

Note: Any property utilizing septic and/or a well will require Environmental Health review, which will lengthen the review time.

Time limitations of applications: An application for an irrigation permit shall be deemed to have been abandoned **45 days** after the date of filing, unless such application has been pursued in good faith or a permit has been issued; except that the building official is authorized to grant one or more extensions of time for additional periods not exceeding 45 days each. The extension shall be requested in writing and justifiable cause demonstrated.

Lawn Irrigation Systems: Every lawn irrigation system permit issued by the building official under the provisions of this code shall expire by limitation and becomes null and void if the building or work authorized by such permit has not received final inspection approval within **60 days** of the issuance of the permit. In the event of the expiration of the permit, no work or inspections shall be performed until a new permit shall be first obtained to do so, and the fee therefor shall be equal to the original fee. The building official may extend the time for action by the permittee for a period not exceeding 30 days on written request by the permittee showing that circumstances beyond the control of the permittee have prevented action from being taken. No permit shall be extended more than once. A contractor's registration may be placed on hold or suspended by the building official, preventing any additional permits being issued, if the contractor fails to meet the above timeframes or other items listed in Section 18-32 of the Code of Ordinances of the Town of Flower Mound.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel any Federal, State, or local law regulating zoning or use of this property.
