Annandale Real Estate announced today that Heritage Health Solutions has signed a 5 year lease to occupy 14,600 square feet at Parker Square. Heritage specializes in integrated healthcare delivery and administrative services, first and emergent fill pharmacy services, and telemedicine for agencies of the federal government including the Department of Veterans Affairs, U.S. Department of Justice and Department of the Army. Established in 2005 by an experienced team of healthcare executives, Heritage has quickly developed into a nationally recognized organization.

Heritage needed to expand their Flower Mound-based business operations and wanted to stay in the general area. "Parker Square had the location, availability and the sense of community that made it a logical choice," explained Annandale Managing Director Hugh Wall.

Phyllis Garcia, with Vintage Realty, was the Tenant Representative for Heritage Health Solutions and commented that, "This location best fit my client's criteria for their expansion."

A nod to its unique Town Square concept, Parker Square has been voted the "Best Place to Meet People in Denton County for 2010". Located at 1500 Cross Timbers, this beautiful town center's diverse tenant mix and prime location has been generating regional traffic since its opening in 1998.

Annandale Real Estate is a privately owned commercial real estate and advisory company based in Dallas, Texas. It strives to offer its clients large corporation experience from senior level professionals in a boutique setting.

Heritage Health Solutions (Heritage) is a Service-Disabled Veteran-Owned Small Business (SDVOSB) specializing in integrated healthcare delivery and administrative services, first and emergent fill pharmacy services, and teleradiology/telemedicine for agencies of the federal government including the Department of Veterans Affairs, U.S. Department of Justice, and Department of the Army. Established in 2005 by a seasoned team of healthcare executives, Heritage has quickly developed into a nationally recognized organization focused on patient quality and customer service.
