

Skilled Nursing Facilities: The Good, The Bad, and The Ugly

Tuesday, January 23
7:00 p.m.

Skilled Nursing Facilities (SNFs) serve two main functions in today's medical provider environment: short-term rehabilitation and long-term care. There are well over 200 plus SNFs in the DFW area alone.

How can I find these facilities when I need one? When should I select one? Which ones are the best? How much do they cost? Who pays for the stay? What should I do to select a SNF? We will discuss and answer these and many more questions during this presentation.

Presenter Norm Staniford, a nationally recognized Certified Senior Advisor with Care Patrol, assists seniors and their families facing the challenge of finding the right senior living community. He enjoys seeing the peace of mind and quality of life improvements achieved by finding the right senior living option.
